Mayank Goyal

Data Analyst (AI-Powered) | Data Visualization & Insights Expert |
Python, SQL, Power BI, Tableau | Building Real-World Solutions |
Freelance & Internship Ready
Delhi, India

Summary

Hi, I'm mayank goyal, a 16-year-old self-taught data analyst with a strong passion for AI and data analytics. I specialize in using tools like Python (Pandas, NumPy), Excel, and Power BI to clean, analyse, and visualize data. I'm particularly excited about leveraging AI techniques, including machine learning, to extract valuable insights and create smart data solutions.

I've worked on a variety of projects, from analyzing sales trends using Python to building automated data reports and dashboards. My goal is to help businesses make data-driven decisions using cutting-edge analytics and AI technology.

I'm currently building my portfolio and am open to freelance opportunities, internships, or collaborations where I can apply my skills and continue learning.

Let's connect and explore how we can work together!

Experience

Self-taught

Data Analyst

April 2025 - Present (1 year 2 months)

Delhi, India

Freelance

Data Visualization Expert

March 2025 - Present (1 year 3 months)

India

Hi, I'm Mayank

I turn complex and messy data into clean, interactive dashboards that actually make sense — and look great too!

I work with tools like Power BI, Tableau, and even use AI to help clean and prepare data faster and more accurately. My goal is simple:
To help businesses understand their numbers in a smarter, easier way.

What I do:

Create clear, easy-to-read dashboards using KPI cards, plots, and visual elements

Use AI tools to clean and organize data quickly

Build interactive reports and maps that tell the full story

Turn boring spreadsheets into something teams actually enjoy using

Whether you're a small business owner or part of a big team, I'm here to help you get more value from your data — without the jargon or confusion.

Let's connect and make your data clean, clear, and powerful!

Kwerky Media
